Collective Development .il CODE

Time to Bridge the Digital Wealth
and Knowledge Divide

“All of the services we provide in our different programs are 100% free and priority is given to the most vulnerable members of the Community”

About Us

Founded in 2013, Ruma Initiative as Cooperative Society and later registered with Corporate Affairs Commission (CAC) in Nigeria 2023 as Ruma Initiative for Collective Development which is fondly called Collective Development [CODE] as non governmental and nonprofit grassroots foundation that works in unserved, underserved, underprivileged and marginalized communities, leveraging technology, Innovation and creativity to close learning gaps, tackle digital inequity, unemployment, access to opportunities and ensure skills development for poor and vulnerable children and youth from low-income families.

We provide innovative, life-saving support to those in need and strive to create more enabling and progressive environments through our work. Our philosophy on aid and development is centered on locally driven solutions from a committed and professional collective of compassionate people.

We are changing lives by developing skills to an individual, enterprise and community level throughout Nigeria. Our technical and vocational skills training programs focus on addressing the scarce and critical skills shortage throughout the country.

We foster job creation by means of facilitating apprenticeships, co-operative learning opportunities, skills advancement, work placements to our Digital Innovation Centre (DIC) Our model is centered on Training And Placing (TAP) our graduates; through partnerships we facilitate for them with private sector co-operations as well as the Federal Government public private companies.

Our graduates receive a trade specific toolkit on successful completion of the course and each year we increase the number of Business/cooperative/enterprise start up grants we award graduates who demonstrate sound business plans.

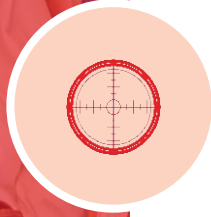

MISSION

To organize, mobilize and channel human, material, physical and financial resources towards creating multiple, alternative and informal learning and skills opportunities for marginalized populations in order to attain self-reliance and self-development.

VISION

Improve the access and quality of education, skills development available to poor and vulnerable children in rural communities across Nigeria.

OUR GOAL

Our 10-year Goal is to educate, empower and skill Up 2,000,000 children, youth and women by 2030. Educate-Empower-Skill Up 2million Children, youth and women 2030

OUR THEMATIC FOCUSES

We create and expand education, training and employment opportunities for our beneficiaries through effective programs aimed at ensuring the development of skills and acquisition of knowledge that enables them become productive and engaged members of the society.

- Literacy Skills
- Access To Opportunities
- Girls' child education
- Youth Led Innovation

Executive Message

At Collective Development [CODE] we are committed to making a difference to the lives of hundred marginalized people from unserved, underserved and underprivileged communities, we are working to eliminate poverty and improving the sustainable socio-economic condition of poor and marginalized families by providing all sorts of supports.

For over six years, Collective Development [CODE] has been championing Creativity and Innovation as the two most important skills of the future. since from Inception, it has been the heartbeat of opportunities and Hope for the marginalised.

We're currently working with industries to shape the new generation of competent, global transervy workforce, creating innovation to make industries to new level of productivity, a new generation of thinkers who will re-invent the way the world, works and place as people and to re-invent to the future of amazing discovery.

Today, Thousands of Beneficiaries for our Digital and vocational skills training program are holding key positions in industries. They bridge the digital knowledge gab, providing contents that is creating live changing opportunities for new sources of wealth generation and development.

Dr, Babangida Kabir Ruma
Founder, Executive Director

- Free Vocational and Soft Skills Training
- Access to Start-up Grants
- Access to Scholarship
- Access to IT Facilities and Help with Job Search
- Access to Loan

Project target
5000 Underseved Women and children
300 Merginalised Communities

CODE/OHUB
Skills and Employability Development
Training in Partnership With Umar Musa
Yar'adua University Katsina.

There are people who are disconnected from global discourse and opportunities because they do not know how to plug themselves into this global discourse and opportunities.

To win any global opportunity, you must be at the top of your game in the work you do and how you communicate it, and It is our hope that young people will take advantage of the opportunities that, the global community provides to catapult their career.

We're currently working with industries to shape the new generation of competent, global transervy work-force, creating innovation to make industries to new level of productivity, a new generation of thinkers who will re-invent the way the world lives, works and place as people and to re-invent to the future of amazing discovery.

Some transferable skills – the ones that support career mobility and adaptability were also shared with the attendees.

OHUB/CODE Entrepreneurship and Jobs Creation Summit

On our efforts to build human capital development we organised Entrepreneurship and Jobs creation summit in katsina, we hosted people from across the northern states.

More than ever before. It's time for us to work together to strengthen our communities and build the capacity for our youth. That work begins by empowering our existing entrepreneurs and startups at the local level. and that's why we launched our Collective Development Institute [CDI] in katsina to serve for an inclusive purposes, helping the young entrepreneurs to build their capacity from the rural have-land, we are building their skills and knowledge capital, we are building hub for the fourth industrial revolutions in our local communities.

This, quite simply, is the very mission of our Initiative's: helping young entrepreneurs to see themselves in the future of the industrial revolution and giving them the tools and resources they need to forge their own path to shape it.

We're proud to be doing this work alongside you -- today and every day.

OHUB/CODE Entrepreneurship Program for women (EPW)

1-Day Intensive practical based Training for 30 women in Katsina State, with the objective to empower and equips Katsina young entrepreneurs with the framework, tools, resources, promotional support and network to build themselves to be the next generation of entrepreneurs

Digital Skills Clinic

An Initiative for Inclusive Community Enterprise Education

12

Dual Mode Learning for Entrepreneurship
& job Creation

(Premier Business Incubation for unserved and underserved)

Digital Skills Clinic: A knowledge economy Industrial Complex with incorporation brand, Identity and objective of facilitating the deployment of Information Communications Technology registered with Corporate Affairs Commission and with Collective Development [CODE] as the lead promoter.

The Digital Skills Clinic initiative leverages on public private partnership to drive Dual-mode enterprise education access to eligible applicants through state governments' support and concerted leverage on low hanging fruit funding windows from Corporate Nigeria, Development partners, International Donor Agencies, and Non-Governmental Organizations. The Digital Skills Clinic programme implementation strategy is Dual-Mode (Combining both virtual and on campus practical, internship and mentorship). Digital Skills Clinic initiative is supported by UNIDO, Google, NBTE, and MSME Business Management Organization.

Our Mission

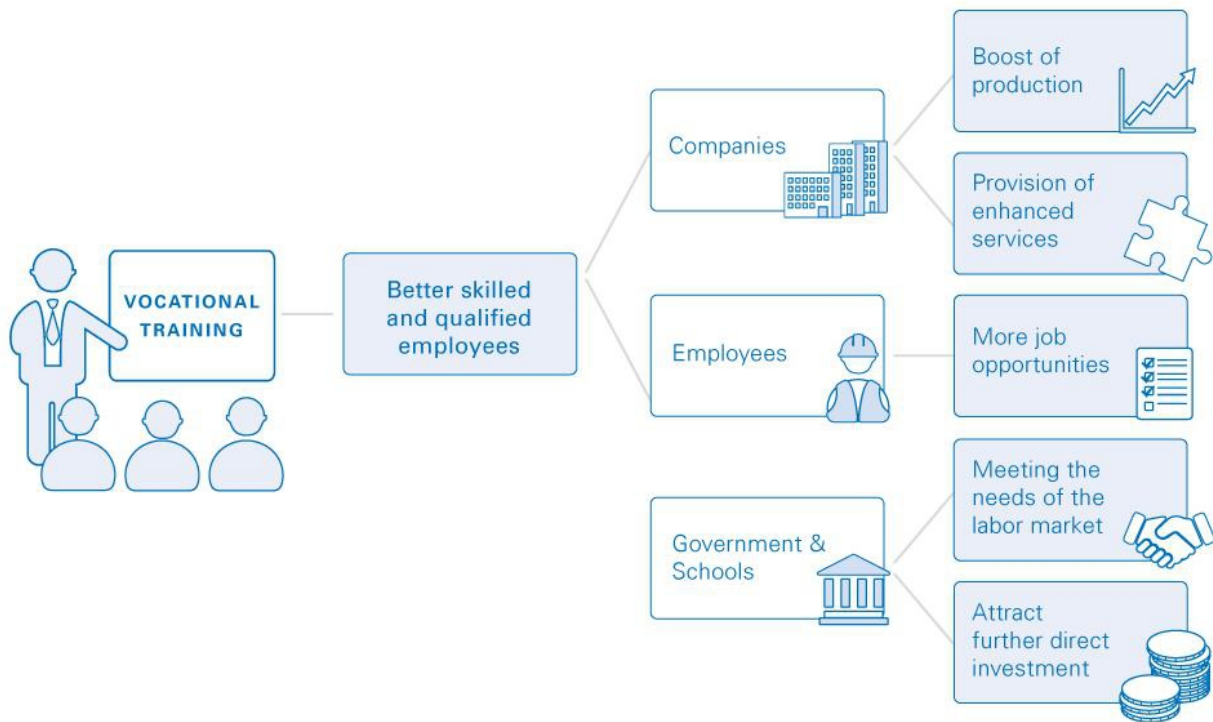

Enhancing the competitiveness of youth, women and Girl Child to opportunities of empowerment through entrepreneurship capacity development, creating wealth, jobs opportunities and sustainable MSME's Eco-System Complex for underserved and unserved communities in Nigeria. Leveraging on concerted alliance network for a Dual-Mode demand driven entrepreneurship development.

Vision

Catalyst for deepening financial inclusion and promoting inclusive entrepreneurship education through extensive collaboration and partnership with the public & private sector, using cost effective, demand driven approach thereby creating an enabling environment for a robust, sustainable MSMEs eco-system complex that will grow the economy and catalyse Nigeria's tax to GDP destination.

 - > Deepening Financial Inclusion
 - > Supporting Corp of Volunteers
 - > E-Business Development Support

The Digital Skills Clinic Initiative

Programmes for Unemployed Youth and Graduates.

A One Stop Shop Value Added Service Provider to the Unserved and Underserved.

MSMED: Micro, Small & Medium Enterprise Development:

The Micro, Small and Medium Enterprise Development is poised to attracting young school leavers and unemployed graduates into MSME's especially, the Agricultural Business value chain, through the NBTE accredited programmes, (National Vocation Certificate Program). Graduating students will be equipped to access facility, to start chosen businesses through identified financing windows, eg. BoI, CBN, World Bank, ADB, Corporate Nigeria CSR etc.

The MSMED Project also targets Women & Girl-child as well as vulnerable families from the unserved and underserved Rural Communities. Graduating students, upon the completion of the program, will be certified with NVC (National Vocation Certificate) on entrepreneurship. We also target students currently in the University for Entrepreneurship Development, certification and internship on vocation skills.

➡ **Startup plan**

Vocational skills entrepreneurship training and capacity development targeting unemployed youth/graduates through Training of Trainers (ToT), intensive bootcamp, face-to-face training in skills clinic as well as mainstreaming them into the National Skills Qualification Framework (NSQF) and supported with online portal (www.skillsclinic.ng) for continuing capacity development

➡ **Scale up Plan**

Vocational skills entrepreneurship capacity development targeting small business owners in partnership with ASVAN (Association of Skilled Vocational Artisans of Nigeria), NASSI (National Association of Small Scale Industrialists), Corporation Federation of Nigeria (CFN), Advisory business with stunted growth for scale-up.

➡ **Volunteer plan**

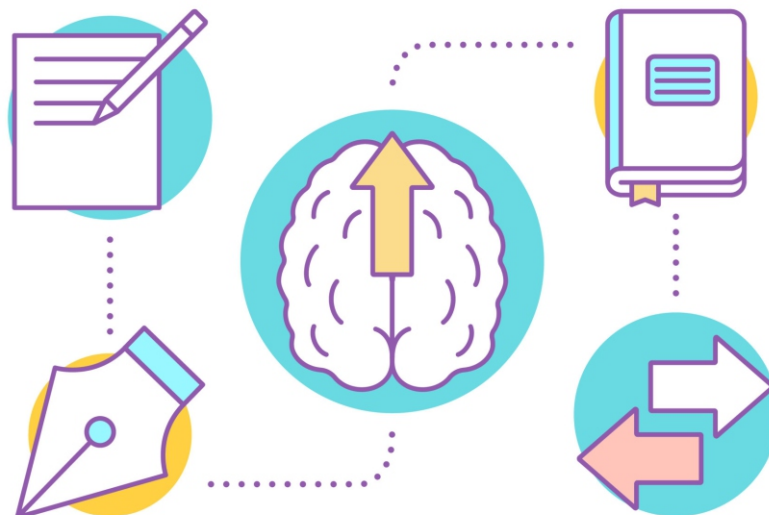

Special capacity development training and certification for volunteer in key enterprise areas: Teacher corps, Community Security, Waste/Facility mangers, Agric extension service providers, pharmacy technicians, Lab technicians, Data redundancy manager, Birth Attendants, Agency banking etc.

SPACE:

Support program for access to continuing entrepreneurship education: the digital skills clinic dual-mode learning approach provides flexible opportunities to unemployed graduates and youth to qualify as professionals in different area; teaching, accounting, engineering, public relations, management, procurement, facility management, security guards, customer care, ict, data management etc. The program also focuses on capacity development civil servants, professionals, public officers as well as faith based organizations and interested members of the public. Digital skills clinic also plans to launch a continuing education and distance learning programs in association with the iconic university and enterprise university of nigeria.

UNIPREP: UNIVERSITY/TERTIARY EDUCATION PREPARATION PROGRAMME

Addressing students with NECO, WAEC and JAMB challenges. question papers for the past 35 years on 17 subjects with multi media support, interactive platform to address the Computer Based Testing (CBT) challenges. This program will be run by students on Dual-mode delivery approach through (www.skillsclinc.ng)

Digital Skills Bank

**One Stop Shop Digital Skills Market Eco-System
(We Help People Get Jobs)**

Digital Skills Bank

Digital Skills Bank is a program designed to boost livelihood and employability outcomes, for 10,000 uneducated rural youth every year over the next 10 years, through informal training and development of various digital, vocational and technical skills that will enhance human capital and lead to long-term gains in employment.

An important component of the Skills Bank program is our portal, www.skillsbank.ng an online human resource platform that showcases each empowered youth with their specialised vocation and competencies, connecting them with individuals or organization in their location that needs their services. This is a one-stop place for individuals or organizations that needs services such as plumbing, wiring, event decoration, hairdressing, barbing, catering etc.

The platform provides the youth beneficiaries with the luxury of connecting to those who need their services at a flexible time line that best fits their schedule, and with opportunities for them to earn-as-they-go through completed projects.

Objectives

- To improve the employability rate among uneducated rural youth with no access to formal educational and skills development opportunities.
- To create alternative channels to support individual growth and personal productivity amongst disadvantaged youth who are not in education, employment or training.
- To improve the capacity and efficiency of disadvantaged youths in bridging the economic gap by providing them access to high demand 21st-century vocations and skills.
- To enable higher levels of economic productivity and sustainable rural development through the promotion of vocational, digital and technical skills.

THE WAGES INITIATIVE

1 MILLION JOB CREATION

FOR WOMEN AND GIRL-CHILD

- A vehicle for continue education for Girl-Child.
- Integrates state and federal government efforts on private sectors MSME development.
- First major attempt to rescue the Women and Girl-Child in a profound, robust and demand driven community approach.
- Address inclusion and business incubation beyond urban boundaries.
- Providing demonstration dividends of the change agenda mantra.

Women and Girl-child Entrepreneurship Program (WAGES)

Women and Girl-child Entrepreneurship Program (WAGES)

Women And Girl-Child Entrepreneurship Support (WAGES) is an entrepreneurship for women development initiative with extensive training and capacity development on ICT, Vocation Skills, & Business Management. Its main focus is creating a platform where the Women and Girl-Child can get access to a sustainable income generation scheme and ultimately become self-sufficient, with opportunities for continuing education through Dual-Mode Learning system.

The initiative focuses on the unserved and underserved Women and Girl-Child who are educationally backward, neglected and excluded. The programme aims at giving them access to practical skills in Entrepreneurship. WAGES strongly believes that the Women and Girl-Child knowledge capital development complex must be nourished and strengthened to directly impact the people in the unserved and underserved locations in Nigeria for sustainable economic growth and therefore, assured future.

WAGES being a learning initiative for entrepreneurship, means that it is devoted to increasing self sufficiency and educational reliance amongst the Women and Girl-Child community in order to achieve overall national growth and inclusion. Our deliberate use of Boot Camp Model helps to ensure quality delivery and scalability.

CODE/OHUB - WAGES Girl-Child Entrepreneurship and Enterprise Development Training

Girls' Child Education (#GoBackToSchool)

HRH. Late Alh. Shehu Idris (Emir of Zazzau) with our team
During a Courtesy visit 2018

A vehicle for Continuing Education for Women and Girl-Child

#GoBackToSchool is a broad-based coalition of National and Community based organization, Tech Companies, NGOs, Start-ups and Entrepreneurship Hubs, dedicated to ensuring quality education for All. The initiative has grown into a thriving and diverse coalition with more than five companies, four NGOs, Four Start-ups and three International Organizations as lead promoters, and working together to increase awareness of the need for quality education for All. Our Focus is on women and Girl – Child who are educationally backward,

We aim at giving girls access to practical skills in entrepreneurship and linkage access to finance. We strongly believe that the women girl – child knowledge capital development complex must be nourished and strengthened to directly impact the people in the various communities of Nigeria for sustainable economic growth and therefore, assured future.

#GoBackToSchool: a learning Initiative, which means that it's devoted to increasing self-sufficiency and educational reliance among the women and Girl – child community in order to achieve overall nation growth and inclusion. Our deliberate use of Boot Camp model helps to ensure quality delivery and scalability for skills capital knowledge development.

Official visit to Estu Yusuf Nuhu The 13th Emir of Agie, Niger State.

During our visit to Niger State we're able to train and build the capacity of over 50 young students in collaboration with office of Niger State Coordinator of NGOs and Youth Engagement. CODE's mission to advocate for Quality education and to provide the students with a tools and training they need to make a mark on their communities.

Empowering the next generation through the pursuit of knowledge, Under Collective Development [CODE] We organized an Intra-school quiz competition at Government pilot day junior secondary school k/sauri Katsina, Katsina state. The captivating quiz was eventful and competitive. The quiz competition involved 40 enthusiastic students whom competed in three stages.

Empowering Islamic Education

CODE's Visit to Madarasatu Ta'alimul Qur'an - KatsinaAt Collective Development (CODE), we believe that education both formal and religious is a cornerstone of societal growth. As part of our ongoing efforts to support inclusive learning opportunities, we recently had the privilege of visiting Madarasatu Ta'alimul Qur'an in Katsina under the Go Back to School (GBTS) Initiative. During our visit, we witnessed the deep commitment of students and teachers to Islamic knowledge. The passion for learning, memorizing the Qur'an, and understanding Islamic principles was truly inspiring. The dedication of the teachers, who selflessly guide these students in their spiritual and academic journeys, further reinforced the importance of supporting Islamic education at the grassroots level. Our Commitment to Islamic Education is a fundamental right, and at CODE, we are committed to ensuring that no child is left behind, regardless of their educational pathway. Islamic schools (Madrasas) play a critical role in preserving moral values, strengthening faith, and fostering a well-rounded education. However, many of these institutions face challenges such as limited resources, inadequate learning materials, and infrastructure deficits. Recognizing these challenges,

CODE, through the Go Back to School (GBTS) Initiative, is actively working to:

- Provide learning materials and essential school supplies.
- Support capacity-building programs for Islamic schoolteachers to enhance their teaching methodologies.
- Advocate for educational policies that integrate Islamic and formal education for holistic learning.
- Encourage community participation in sustaining these learning centers

A Call to Action: Supporting the Future of Islamic Learning The importance of preserving and advancing Islamic education cannot be overstated. As we move forward, we invite stakeholders, community leaders, and well-meaning individuals to join us in ensuring that Islamic schools continue to thrive. By working together, we can bridge the gaps and create an environment where every child whether in a formal school or a Madrasa has equal access to quality education and opportunities for growth.

This visit to Madarasatu Ta'alimul Qur'an has reinforced our dedication to supporting faith-based education, and we remain steadfast in

our mission to empower young learners with the knowledge, values, and skills they need to succeed. Together, we can build a future where Islamic education flourishes, and every student has the tools to contribute positively to their communities.

Empowering Young Minds Through Education and Innovation

At Collective Development (CODE), we believe that education is the foundation for a prosperous future, and every child deserves the opportunity to learn, grow, and thrive. Our recent visit to Ahmadu Coomassie Science Model Primary School, Kayalwa was an inspiring experience that reaffirmed our commitment to shaping the next generation of leaders, innovators, and problem-solvers. The day was filled with engaging science experiments, hands-on creative activities, and interactive learning sessions, all designed to spark curiosity and encourage critical thinking among the students. It was truly heartwarming to see their excitement, enthusiasm, and eagerness to explore new ideas. Their bright minds and boundless potential are a testament to the importance of investing in education and creating environments where learning is both fun and impactful.

At CODE, we are passionate about bridging educational gaps and providing children with the tools and knowledge they need to excel. Our approach goes beyond the classroom—we focus on holistic development, ensuring that young learners gain not only academic knowledge but also the confidence and skills necessary to navigate the world and build successful futures.

We extend our heartfelt gratitude to the dedicated educators and staff at Ahmadu Coomassie Science Model Primary School for their relentless efforts in shaping these young minds. Their hard work and commitment to quality education make a lasting impact on the lives of their students, and we are honored to support their mission.

This visit is just one of many initiatives CODE is leading to foster educational excellence, promote digital literacy, and empower youth across communities. We believe that every child holds the potential to achieve greatness, and by working together, we can create a future where education is accessible, inspiring, and transformative.
